Work Experience

FULL STACK DEVELOPER - CapeStart Software Private Limited (12/2020 - Present)

1. Leading a team of 5 developers and 3 testers, overseeing Agile methodology processes. Managing product refinement, development, code review, and production deployment responsibilities for the team.
2. Transformed Monolithic Architecture into Microservices, spearheaded the implementation of Mapbox UI and Backend for the entire product. Independently developed a customer portal within a short timeframe.

FULL STACK DEVELOPER - Chain-Sys India Private Limited (01/2019 - 11/2020)

1. DataZAP - Practical expertise in extracting, integrating, validating, migrating, and reconciling data from diverse endpoints, including Sharepoint, One Drive, Box, Azure, FTP, JSON, XML, Excel, CSV, Elastic search, and databases.
2. DataZAP - Hands-on experience with integrating WebSockets for live data transfer updates.
3. DataZEN - Developed Multi-Language support for the entire product.
